## **DECLARATION**

Commissioner of Patents  
P.O. Box 1450  
Alexandria, VA 22313

Dear Sir:

I, WALTER PARSADAYAN hereby declare that:

1. My residence, post office address and citizenship are as stated below next to my name.

2. I verily believe myself to be the original, first and joint inventor of the subject matter which is claimed in the present application for which I solicit a reissue patent on the invention entitled "Entry Phone Apparatus And Method With Improved Alphabetical Access".

3. I have reviewed and understand the content of the Specification, including the Claims 1 through 36 of the present application.

4. The entire title of U.S. Letters Patent No. 6,317,489 entitled, "Entry Phone Apparatus And Method With Improved Alphabetical Access" (the '489 patent) which issued November 13, 2001, is vested in Link Door Controls, Inc.

5. I acknowledge the duty to disclose information which is material to the examination of the present application in accordance with Title 37, Code of Federal Regulations, §1.56(a).

6. There is no foreign application for patent or inventor's certificate on this invention filed by me or my legal representatives or assigns having a filing date before that of the application on which priority is claimed.

7. I believe the aforesaid Letters Patent 6,317,489 to be wholly or partly inoperative by reason of claiming less than I had a right to claim in the patent. More specifically, I believe that the independent Claim 1 is too narrow in that it claims an outer housing and substantially enclosed inner housing within the outer housing which terminology has been removed from the added independent claim 22. .

8. All errors corrected in this re-issue application arose without any deceptive intent on the part of the applicants.

9. All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true; and further these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
